THE TOWN OF  
**WESTLAKE**

---

DISTINCTIVE BY DESIGN

November 10, 2025

Honorable Mayor, Council Members, and Citizens of the Town of Westlake,

The Town of Westlake (the "Town") Fiscal and Budgetary Policies require that the Town's Finance Department prepare a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Accordingly, the Annual Comprehensive Financial Report for the Town of Westlake, Texas for the fiscal year ended September 30, 2024, is hereby issued.

This report consists of management's representations concerning the finances of the Town. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making representations, the Town established a comprehensive internal control framework that was designed both to protect the Town's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Town's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Town's comprehensive framework of internal controls has been designed to provide reasonable, rather than an absolute, assurance that the financial statements will be free from material misstatements. As management, we assert that this financial report is complete and reliable in all material respects to the best of our knowledge and belief.

The Town's financial statements have been audited by BrooksWatson & Company, PLLC. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town for the fiscal year ended September 30, 2024, were free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town's financial statements for the fiscal year ended September 30, 2024, were fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The Town of Westlake's MD&A can be found immediately following the independent auditor's report. The Statistical Section includes financial and demographic information relevant to readers of the Town's financial statements and is generally presented on a multi-year basis.

## **Profile of the Town**

Westlake is certainly distinctive by design. As a result of this intentional design, our community is an oasis of natural beauty that maintains open spaces in balance with one-of-a-kind developments, trails, and quality of life amenities amidst an ever-expanding urban landscape.

Nestled in the Dallas-Fort Worth (DFW) Metroplex, Westlake is designated as both a Platinum Level Scenic City and a Tree City USA.

Extraordinary residential developments and architecturally vibrant corporate campuses find harmony among our meandering roads and trails, lined with native oaks and stone walls. Westlake is a leader in education, known for our innovative partnerships between the Town-operated Charter school and our corporate neighbors.

We strive to maintain strong aesthetic standards and preserve the natural beauty in our community where hospitality finds its home. Westlake is family-friendly, welcoming, fully involved and invested in our rich heritage, with a vibrant present and sustainable future.

Ideally located minutes from downtown Fort Worth, Alliance Airport, and the Dallas/Fort Worth International Airport, the Town of Westlake is home to several prestigious residential communities, Fortune 500 companies, and corporate headquarters, all of which possess a unique character and charm. There is a common ideal shared by our corporate and individual residents of support for the existing character and charm of the Westlake community as well as a commitment to excellence in new development.

The Town geographically lies in both northeast Tarrant County and southern Denton County and may be conveniently accessed by several major thoroughfares, including SH 114, SH 170 and US 377. Westlake occupies approximately seven (7) square miles and serves a population of approximately 1,922. In 2024, the average size of new home construction was 10,693 square feet, with an average estimated construction cost of \$3.2 million.

Westlake, incorporated in 1956, is considered a Type A general-law municipality. The Town operates under the Council-Manager form of government. The Council is comprised of a mayor and five (5) council members and is responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring the Town Manager. The Town Manager is responsible for carrying out the policies and ordinances of the Council, for overseeing the day-to-day operations of the Town and appointing and supervising heads of various departments. The Mayor and Town Council members serve two (2) year terms. All elected officials are elected at-large for a two-year staggered term each May.

The financial reporting entity (the government) includes all funds of the primary government (i.e. the Town of Westlake), as well as all its component units. Component units are legally separate entities for which the primary government is financially accountable. The following entities are considered blended component units:

**Lone Star Public Facilities Corporation** is a Texas nonprofit corporation that acts on behalf of the Town to further the public purposes under the Public Facilities Corporation Act, as its duly constituted authority and instrumentality. The board of directors, appointed by the Town's governing body, is comprised of seven members, of whom five must be members of the Town's governing body.

**4B Economic Development Corporation** is a Texas nonprofit industrial corporation under the Development Corporation Act of 1979 formed to promote economic development within the Town and the State of Texas to eliminate unemployment and underemployment, and to promote and encourage employment and the public welfare of, for, and on behalf of the Town by developing, implementing, financing, and providing one or more projects defined and permitted under Section 4B of the Act. The board of directors is composed of seven (7) persons appointed by the members of the Town Council. Four of the members of the board of directors are members of the Town Council.

**Westlake Academy** (Academy) is an open-enrollment charter school, as provided by Subchapter D, Chapter 12, of the Texas Education Code. The Town of Westlake ("Charter Holder") applied for and became the first municipality in Texas to ever receive this special charter designation. The Academy had 882 students in FY 23-24 and serves Kindergarten thru 12th grade. The Academy graduated their first class in FY 09-10. The Board consists of six (6) trustees, appointed by the Town's governing body. Currently, all members of the Academy Board are members of the Town's governing body. The Academy's year-end changed from August 31 to June 30 with FY 23-24, therefore, the information presented for the Academy is for a ten-month fiscal year.

Discretely presented component units are legally separate entities and not part of the primary government's operations. These component units are as follows: Texas Student Housing Corporation-Denton Project, Texas Student Housing Corporation-College Station Project, and Texas Student Housing Authority.

## **Services Provided**

Westlake's value proposition is found in the excellent municipal and academic services that are provided to our residents – all at an exceptional price. Our community has high expectations for service delivery – both in accessibility, responsiveness, financial stewardship, amenities, distinctive developments, open spaces and education.

Major services provided under the general government and enterprise functions are: fire and emergency medical services, police, water and sewer utility services, park and recreational facilities, street improvements, education, and administrative services. The Town utilizes a combination of direct service delivery along with outsourced services, as necessitated. The decision as to which service to deliver

directly versus outsourcing is based on analysis of cost-effectiveness, citizen responsiveness, and customer service quality.

## **Economic Conditions and Outlook**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the environment within which the Town operates. The Town staff is aware that the Town of Westlake does not create wealth but instead is entrusted with public dollars collected on behalf of our citizens. We are stewards who are fully vested in the success of the Town of Westlake and Westlake Academy. We exist as a municipal entity for one reason and one reason only: to prioritize and deliver the best services possible with the resources provided to achieve an exceptional quality of life. This is a challenge the staff takes very seriously, one that we pursue with vigor every day. Over the previous fiscal year, the Town's continued work and focus on important initiatives and projects allows us to balance our "distinctive development, trails, and quality of life amenities amidst an ever-expanding urban landscape."

The current and potential development within our community provides both an exciting and challenging time in Westlake. Adhering to the Town's vision remains the key to Westlake's success in managing the significant growth. While growth has steadily continued, it continues to present very clear opportunities for our community if we wish to maintain the elements of Westlake that make it so distinctive. These community attributes include our beautiful neighborhoods with high quality residences, strong aesthetic standards, an exemplary Town-owned IB World K-12 charter school, open space preservation, streetscaping, emphasis on proactive planning, and maintaining our view corridors. The impending change that surrounds Westlake involves not only our current internal development but also the growth opportunities planned and now underway for the State Highway corridors (SH 114 and SH 170) in northeast Tarrant County and into southern Denton County. Our neighboring communities have also experienced significant growth and are nearing a fully developed condition that will only add pressure from developers as they look to a relatively undeveloped Westlake.

- **Westlake's Permanent Population Growth:** This is the portion of our population considered to be our permanent residents. From the 1990 population of 185 to the 2023 population of 2,006, our Town saw an increase of 84 additional residents in the past year. We will monitor and plan for the anticipated increase in these numbers, currently expected not to exceed 5,000 residents.
- **Traffic Demands Due to Growth in Westlake and Surrounding Areas:** The four (4) municipalities surrounding Westlake (Keller, Southlake, Trophy Club, and Roanoke) are projected to have a combined population of 215,000 people by 2040. The growth in these communities will generate additional traffic that commutes through our Town. And with the projected level of residents (5,000) and existing zoning entitlements (if executed), we would expect an estimated 300,000 vehicle trips per day. Local impacts associated with this level of growth affect our street infrastructure, water and sewer system capital investment requirements, as well as demand for daily municipal services. Policies, and the provided estimates above, established in our

Comprehensive Plan will be essential for addressing this issue via the Town's thoroughfare plan as it pertains to development in the community.

- **Housing Start Increases and Maintaining Westlake's High-Quality Residential Housing:** We continue to see strong single-family residential construction demand, with the majority of the growth in the Granada (now nearing completion), Solana Hills, Entrada, and The Knolls of Solana neighborhoods.

The Entrada mixed-use development continues to progress, albeit slowly, with both residential and commercial projects under construction. Entrada's infrastructure is financed with a Town-approved Public Improvement District (PID), the bonds for which are paid back by assessments on development within Entrada. When the infrastructure is complete, it will add (over time) a wide variety of 322 residential units to Westlake - including single-family homes, villas, condominiums, and townhomes.

Our residential construction activity remains steady with an increase in building permits for housing. Housing starts in Westlake, due to our homes' high value, add significant taxable value to our taxing base; however, this also impacts the demand for municipal services, including the Town's K-12 public charter school, Westlake Academy.

As the area economy continues to outperform the lasting effects of the global economic downturn from the pandemic, and Westlake and our surrounding communities continue to experience commercial development, this will further attract individuals who work for and own these businesses. As our housing stock expands in response to these forces, we will need to manage our developments to ensure we maintain our distinctive community as an 'oasis of natural beauty' and achieve high-end housing options as identified in the Housing element of our Comprehensive Plan. The Town issued 26 single family home construction permits in FY24 for an approximate total of \$82,295,850.

### **Local Challenges Involving Commercial Growth**

- **Commercial Development, Economic Development, and Daytime Population Growth:** Because Westlake is the home to major corporate office campuses, its Monday-Friday daytime population continues to grow and is conservatively estimated to grow to an approximate 15,000 individuals, post- COVID. These office complexes are comprised of notable corporate clients that include Deloitte LLP, Fidelity Investments, and Charles Schwab, among other Fortune 500 companies.

Commercial construction was significantly more varied than in recent years, reflecting the progress in development across the Town. Commercial projects, including finish out and remodel projects, totaled 14 permits issued with a total valuation of \$50,037,087. In addition, 6 new commercial permits were issued, totaling in valuation of about \$355,054,485. This includes the continued expansion project at the Deloitte corporate campus and the 2 new commercial businesses, Dutch Bros. and Pinstack. Thirteen (13) Certificate of Occupancies were issued as well.

- **Commercial Development in Entrada:** The mixed-use development of Entrada, located at FM1938/Davis Boulevard and SH114, slowly continues to create growth in our commercial tax

base. During FY2024, commercial finish outs and incremental progress occurred; more traction is expected next year.

- **Economic Development:** The Town has pursued the ideas advanced in the Economic Development element of the Comprehensive Plan. That is, where appropriate, to pursue businesses that ultimately expand the Town's tax base with high quality office buildings, and at the same time, compliments our financial services industry hub which has already been created through our corporate residents of Fidelity, Deloitte, and Charles Schwab. Further, we pursue the types of businesses interested in high quality office campus development and creating well-paying employee positions. The expansion of the Deloitte University campus further establishes us as a leading financial services corridor within the DFW Metroplex.
- **Balanced Growth to Impact Cost of Municipal Services:** Likewise, the ability to fund municipal services utilizing a cost-effective revenue format requires balanced growth that provides for commercial development and a diversified tax base, while maintaining the community's open space and pastoral atmosphere. At the same time, we must continue to ensure the policy direction of the Town is focused on growth paying for the infrastructure for which it creates the demand.

Staff will continue to monitor our corporate stakeholders and attempt to identify avenues to strengthen these relationships and assist in attracting new corporations to Westlake. The expansion of commercial development will continue to grow Westlake's daytime population.

### **Local Challenges – Other**

There are other local challenges involving both financial and physical site planning, strategic forecasting, residential feedback through our survey instruments and the Town's public charter school, Westlake Academy. As we look to regional or state issues and opportunities, we will monitor these issues among others:

- **Water Usage and Demand:** As water demand continues to be a high priority for our entire region, the Town has worked diligently over the last year to rigorously inspect and update infrastructure. Significant investments in the Town's aging water and wastewater systems will be necessary in the coming years to ensure safe delivery to current customers, while adequately planning for redundancies and meeting future growth needs.
- **Westlake's Residential Growth Impact on the Academy:** Planning for Academy growth in the face of residential development remains a consistent focus and challenge for us. Wherever possible, the Town enters into an economic development agreement with residential developers to provide funding for Westlake Academy facilities and lessen the impact of their residential development on the school's enrollment.
- **Pursuit of Infrastructure and Services Reinvestment While Combating Certain Cost Increases:** With our continued growth comes the need to allocate capital spending as we continue to

reinvest in our infrastructure, including water and sewer utilities, trail, and roadway improvements. The FY2024 budget included funds for multiple assessments and studies of the Town and Academy infrastructure and capital equipment needs. Due to the large scope, these activities will continue into FY2025, and it is expected that the FY2026 budget will incorporate the findings.

As our community and those surrounding us continue to develop, Staff will strengthen our partnerships and/or opportunities to help in the improvement of mobility within the community without compromising the design standards and expectations of our residents. East/West traffic continues to be an area of concern along with our surrounding highway capacity for transient vehicles. Town staff continues the work with TxDOT, and our counties, as the construction of the SH 114 service road ramps are reversed between FM 1938 and Dove Road in Southlake, and the SH 170 main lanes have opened. Despite these improvements, commuter traffic is growing with the increased call by the business community for workers to return to the office and area population continues to rise.

Users of this transmittal letter, as well as others interested in the programs and services offered by the Town of Westlake, are encouraged to read the Town's Fiscal Year 2023-2024 Budget. The budget details the Town's long-term goals and financial policies and describes program accomplishments and initiatives.

### **Acknowledgements**

The preparation of this report could not have been accomplished without the dedicated services of the entire Finance Department staff. Appreciation is expressed to all Town employees, especially those employees who were instrumental in the successful completion of this report.

Town Staff would sincerely like to thank the Mayor and Council for their conservative leadership and steadfast support through their transparent governance of the Town's financial operations in a responsible and progressive manner.

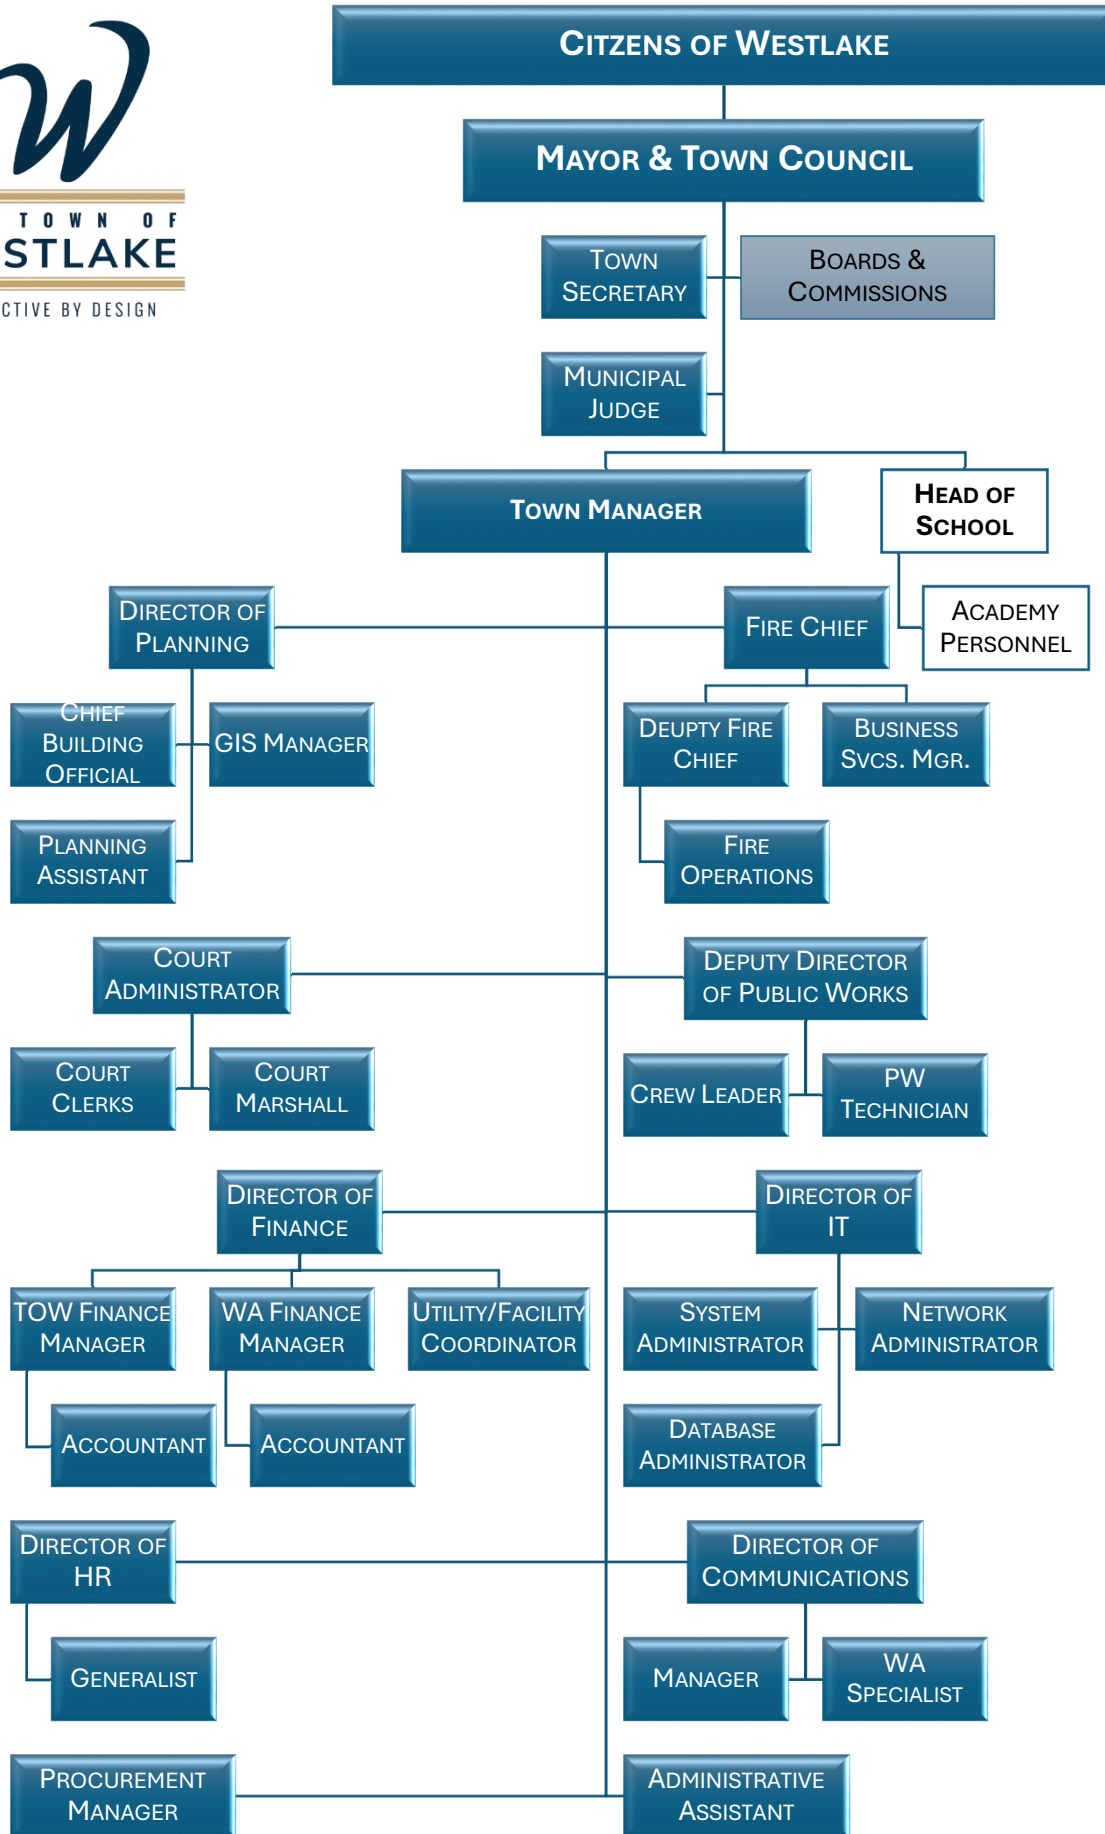

Respectfully Submitted,

Wade Carroll  
Town Manager

## ***INDEPENDENT AUDITOR'S REPORT***

To the Honorable Mayor and  
Members of the Town Council  
Town of Westlake, Texas:

### **Report on the Audit of the Financial Statements**

#### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Westlake, Texas (the "Town") as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Town of Westlake, Texas, as of September 30, 2024, and the respective changes in financial position and, where applicable, cash flows for the year ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Town of Westlake, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Responsibilities of Management for the Financial Statements***

The Town's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for one year after the date that the financial statements are issued.

### *Auditor's Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### *Emphasis of Matter*

#### *Regarding Going Concern*

The accompanying financial statements have been prepared assuming the discretely presented component units will continue as going concerns. As discussed in Note 5. I. to the financial statements, the discretely presented component units Texas Student Housing Authority – College Station Project and Texas Student Housing

Corporation – Denton Project are in default on their bonds due to failure to meet certain bond covenants. This gives bond holders the right to accelerate and demand payment on the bonds in full and foreclose on the assets. This condition raises substantial doubt about the discretely presented component units' ability to continue as going concerns. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

#### *Blended Component Unit Year End*

As discussed in Note 1.B. to the financial statements, the blended component unit, Westlake Academy, has a year end of June 30, 2024. Our opinion is not modified with respect to this matter.

#### *Discretely Presented Component Unit Restatement*

As discussed in Note V.K. the financial statements, due to corrections over accrued interest in the prior year, the discretely presented component unit restated its beginning net position. Our opinion is not modified with respect to these matters.

#### *Other Matters*

##### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in net pension liability and related ratios, schedule of employer contributions to pension plan, schedule of changes in other postemployment benefits liability and related ratios, and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

This accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

A handwritten signature in black ink that reads "Brooks Watson & Co." in a cursive, flowing script.

***MANAGEMENT'S DISCUSSION  
AND ANALYSIS***

(This page intentionally left blank.)

# Town of Westlake, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### September 30, 2024

As management of the Town of Westlake, Texas (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended September 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages iii-ix of this report.

#### **Financial Highlights**

- The assets and deferred outflows of the Town exceeded its liabilities and deferred inflows (net position) at September 30, 2024 by \$105,945,624.
- The Town's total net position increased by \$15,568,478. The majority of the Town's net position is invested in capital assets or restricted for specific purposes.
- The Town's governmental funds reported combined ending fund balances of \$58,160,529 at September 30, 2024, an increase of \$11,947,496 from the prior fiscal year; this includes an increase of \$7,856,155 in the general fund, an increase of \$156,370 in the debt service fund, an increase of \$1,271,837 in the capital projects fund, an increase of \$1,399,907 in the 4B EDC fund, an increase of \$986,445 in the Westlake Academy fund, a decrease of \$350,011 in the Westlake Academy expansion capital projects fund, and an increase of \$626,793 in the nonmajor governmental funds.
- At the end of the fiscal year, unassigned fund balance for the general fund was \$38,747,187 or 340% of total general fund expenditures.

#### **Overview of the Financial Statements**

The discussion and analysis provided here are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

#### **Government-Wide Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business. Two statements, the Statement of Net Position and the Statement of Activities, are utilized to provide this financial overview.

The *statement of net position* presents information on all of the Town's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating. Other non-financial factors, such as the Town's property tax base and the condition of the Town's infrastructure, need to be considered in order to assess the overall health of the Town.

# Town of Westlake, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

### September 30, 2024

The *statement of activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government, public safety, cultural recreation, streets, public works, visitor services, and education. Normally, these operations are financed by property taxes, sales taxes, and franchise fees. The business-type activities of the Town include water/sewer (utility) and cemetery operations.

The government-wide financial statements include not only the Town itself (known as the *primary government*), but also the legally separate component units including the three Texas Student Housing entities, which are discretely presented in the government-wide statements. Financial information for these component units are reported separately from the financial information presented for the primary government itself. In addition, the Town has the following blended component units: Lone Star Public Facilities Corporation, 4B Economic Development Corporation, and Westlake Academy, an open enrollment charter school owned and operated by the Town of Westlake. The Town is financially accountable for all these component units.

The government-wide financial statements can be found on pages 20-23 of this report.

## FUND FINANCIAL STATEMENTS

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

### **Governmental Funds**

*Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing

# Town of Westlake, Texas

## *MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued*

**September 30, 2024**

decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, the capital projects fund, the 4B EDC fund, Westlake Academy, and the Westlake Academy Expansion Capital Projects fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in a separate section of the report.

The Town adopted an annual appropriated budget for each fund, with the exception of the Solana PID capital projects fund and the Public Arts Fund. A budgetary comparison statement has been provided for each fund with an adopted budget to demonstrate compliance with their respective budget.

The basic governmental fund financial statements can be found on pages 24-33 of this report.

### **Proprietary Funds**

The Town's proprietary funds are all enterprise funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses an enterprise fund to account for its water/sewer and cemetery operations. All activities associated with providing such services are accounted for in these funds, including administration, operation, maintenance, debt service, capital improvements, and billing and collection expenses. The Town's intent is that costs of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private enterprise.

Proprietary financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Utility fund and Cemetery fund, both of which are considered to be major funds of the Town.

The basic proprietary fund financial statements can be found on pages 34-39 of this report.

### **Component Units**

The Town maintains the accounting and financial statements for three discretely presented component units. Texas Student Housing Authority, Texas Student Housing Authority – College Station Project, and Texas Student Housing Corporation – Denton Project are all discretely presented component units displayed on the government-wide financial statements. The 4B EDC fund and Westlake Academy are presented as blended component units and included in the basic governmental fund statements.

# **Town of Westlake, Texas**

## ***MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued***

**September 30, 2024**

### **Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is similar to the accounting used for proprietary funds. The Town of Westlake maintains one fiduciary fund, the Solana PID Private Purpose Trust Fund.

### **Notes to Financial Statements**

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 43-99 of this report.

### **Other Information**

In addition to the basic financial statements, MD&A, and accompanying notes, this report also presents certain Required Supplementary Information (RSI). The required RSI includes a budgetary comparison schedule for the general fund, Westlake Academy (general fund), schedule of changes in the net pension liability/OPEB liability and related ratios and schedule of employer contributions for the Texas Municipal Retirement System and the Teacher Retirement System of Texas. RSI can be found after the basic financial statements.

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted previously, net position may serve over time as a useful indicator of the Town's financial position. For the Town of Westlake, Texas, assets and deferred outflows exceeded liabilities and deferred inflows by \$105,945,624 as of September 30, 2024, in the primary government.

The largest portion of the Town's net position, \$39,942,216 reflects its investments in capital assets (e.g., land, buildings, water system, machinery and equipment, construction in progress), less any debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town of Westlake, Texas' net position of \$19,294,260 represents resources that are subject to external restrictions on how they may be used.

At the end of the current fiscal year, the Town of Westlake, Texas is able to report positive balances in all reported categories of net position for the primary government, both for the government as a whole,

# Town of Westlake, Texas

## MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued*

### September 30, 2024

as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

#### Statement of Net Position:

The following table reflects the condensed Statement of Net Position:

	2024			2023

<b>Total Net Position</b>	<b>\$ 100,405,224</b>	<b>\$ 5,540,400</b>	<b>\$ 105,945,624</b>	<b>\$ 88,103,887</b>	<b>\$ 2,273,259</b>	<b>\$ 90,377,146</b>

Total current and other assets of the primary government were \$76,040,739 and \$60,960,507 as of September 30, 2024 and September 30, 2023, respectively. The increase is primarily due to greater interest-bearing account balances held at the end of the year due to an operating surplus. Current liabilities of business-type activities were \$1,901,448 and \$1,814,482 as of September 30, 2024 and September 30, 2023, respectively. The increase was primarily due to the timing of water purchases in the current year. Long-term liabilities for governmental activities decreased by \$2,635,939 or 7% due to debt issuance in the prior year. Deferred outflows and inflows of resources experienced changes due to market fluctuation and the changes in investment returns impacting pension liability balances.

**Town of Westlake, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued**  
**September 30, 2024**

Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the Town's activities.

**Governmental Activities – Revenues**

For the year ended September 30, 2024, revenues from governmental activities totaled \$38,446,273. Sales tax and grants and contributions are the Town's largest general revenue sources. Overall revenue decreased \$3,404,641 or 8% from the prior year. Charges for services increased by \$3,948,448 or 134% due primarily to nonrecurring license and permit revenues in the current year, which was a result of construction projects and permit fee increases. Grants and contributions decreased by \$4,607,213 or 29% primarily due to the nonrecurring donations received from Deloitte in lieu of land dedication and a reduction in the amount of reimbursements from Denton County when compared to the prior year. Property taxes increased by \$500,187 or 14% due to greater appraised values in the current year. Sales taxes decreased by \$4,665,635 or 28% primarily due to nonrecurring large transactions during the prior year. Franchise and local taxes increased by \$6,336 or 1% due to greater electricity usage and miscellaneous franchise revenues received in the current year. Occupancy taxes increased by \$191,670 or 34% due to greater tourism activity over the course of the year. Investment income increased by \$1,130,487 or over 100% due to greater interest-bearing accounts and the realization of higher interest rates. Other revenues increased by \$91,079 or 151% as a result in part because of increases in EMS revenue and court technology fee revenues. All other revenues remained relatively stable when compared to the previous year.

**Town of Westlake, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued**  
**September 30, 2024**

This graph shows the governmental function expenses of the Town:

**Governmental Activities – Expenses**

For the year ended September 30, 2024, expenses for governmental activities totaled \$26,144,936. This represents a decrease of \$910,346 or 3% from the prior year. The Town's largest expense category is education and the operating expenses of Westlake Academy, which totaled \$13,221,132 at year-end. Education expenses increased by \$80,477 or 1% primarily as a result of reclassification of education expenses in the general fund. In addition, the Academy incurred greater expenses related to athletic and academic stipends paid in the current year. General government expenses decreased by \$796,080 or 14% due to nonrecurring professional service costs, court technology and server and facility maintenance expenses incurred in the prior year. Cultural and recreation expenses increased by \$144,106 or 75% primarily due to nonrecurring repairs and maintenance in the current year. Public works expenses increased by \$167,224 or 11% due to nonrecurring street maintenance and roadside irrigation costs incurred in the current year. Visitor services decreased by \$278,389 or 51% due to nonrecurring personnel costs and zoning/planning contract expenses incurred in the prior year. All other expenses remained relatively consistent when compared to the previous year.

**Town of Westlake, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued**  
**September 30, 2024**

Business-type activities are shown comparing operating costs to revenues generated by related services.

For the year ended September 30, 2024, charges for services by business-type activities totaled \$8,016,907. This is an increase of \$40,552 or 1% from the previous year. The increase is considered relatively consistent to the prior year.

Utility service expenses increased by \$33,219 or 1%. The increase is considered relatively consistent to the prior year.

#### **FINANCIAL ANALYSIS OF THE TOWN'S FUNDS**

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

Governmental Funds - The focus of the Town's governmental funds is to provide information of near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the year.

At September 30, 2024, the Town's governmental funds reported combined fund balances of \$58,160,529, an increase of \$11,947,496 in comparison with the prior year. Approximately 66% of this amount, \$38,634,857, constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is either *nonspendable, restricted or committed* to indicate that it is 1) not in spendable form totaled \$109,657, 2) restricted for particular purposes totaled \$19,244,260 or 3) committed for Westlake Academy campus activities totaled \$171,755.

# Town of Westlake, Texas

## *MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued*

### September 30, 2024

As of the end of the year the general fund reflected a total fund balance of \$39,135,298. General fund balance increased by \$7,856,155 during the current year. This increase can be attributed to greater than anticipated revenues, caused primarily by sales tax revenues. In addition, current year expenditures were less than appropriations, primarily in general government and education.

The debt service fund had a deficit fund balance of \$112,330 at September 30, 2024, an increase of \$156,370 when compared to the previous year. The increase in fund balance is mostly related to greater transfers into the fund in the current year. During the year, the fund recorded total principal and interest payments of \$3,434,395 and property tax revenue of \$1,832,327.

The capital projects fund had an ending fund balance of \$7,581,154. The capital projects fund increased by \$1,271,837 when compared to the previous year. The increase is a direct result of current year revenues and other financing sources exceeding capital expenditures.

The 4B EDC fund reflected an ending fund balance of \$4,732,089. The fund balance increased by \$1,399,907, which is primarily a result of revenues exceeding planned expenditures in the current year.

The Westlake Academy fund reflected an ending fund balance of \$2,094,874, an increase of \$986,445 compared to the prior year. The increase is primarily a result of current year revenues exceeding expenditures during the year.

The Westlake Academy expansion capital projects fund reflected an ending fund balance of \$3,082,872, a decrease of \$350,011. The decrease is a direct result of capital expenditures exceeding current year revenues and other financing sources.

Proprietary Funds - The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Net position in the Town's utility fund totaled \$5,054,421. Unrestricted net position at the close of the fiscal year for both the Town's proprietary funds amounted to \$14,415,355, an increase of \$3,103,842 over the previous year. Total investment in capital assets, net of related debt was a deficit of \$8,924,955, and capital assets, net of depreciation totaled \$8,701,540.

### **GENERAL FUND BUDGETARY HIGHLIGHTS**

Total budgeted revenues of \$20,774,595 were more than actual revenues of \$20,694,447, resulting in a negative revenue variance of \$80,148. The negative variance was primarily the result of lesser than expected sales taxes. Total budgeted expenditures of \$12,476,147 were greater than actual expenditures of \$11,385,028, resulting in a positive expenditure variance of \$1,091,119. The variance in total expenditures was primarily due to positive variances within the general government, public safety, and education departments. Expenditures did not exceed appropriations at the legal level of control.

**Town of Westlake, Texas**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS, *Continued***  
**September 30, 2024**

**CAPITAL ASSETS**

As of the end of the year, the Town's governmental activities funds had invested \$80,938,804 in a variety of capital assets and infrastructure, net of accumulated depreciation. The Town's business-type activities funds had invested \$8,701,540 in a variety of capital assets and infrastructure, net of accumulated depreciation. This investment in capital assets includes land, buildings, vehicles, machinery and equipment, water and sewer system, and infrastructure.

Major capital asset events during the current year include the following:

- Westlake Academy improvements for \$441,833.
- Purchased LPR cameras for \$115,200.
- Made street improvements for \$719,920.
- Gym renovations totaling \$350,407.
- Water line improvements totaled \$51,589.
- Lift station pump improvements totaled \$17,812.

More detailed information about the Town's capital assets is presented in note 4.C to the financial statements.

**LONG-TERM DEBT**

The Town's outstanding general obligation bonds, certificate of obligation bonds, contractual obligations, tax notes, notes payable, and lease liabilities, net of all premiums and discounts decreased by \$2,950,570 for governmental activities and decreased by \$592,895 for business-type activities from the prior year. The total outstanding debt at the close of the fiscal year, was \$32,010,263 for governmental-activities and \$17,542,683 for business-type activities.

More detailed information about the Town's long-term liabilities is presented in note 4.E to the financial statements.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The Mayor and Town Council are committed to maintaining and improving the overall wellbeing of the Town of Westlake, and improving services provided to their citizens. The Town is budgeting for steady economic growth in the upcoming year.

## RECONCILIATION OF THE BALANCE SHEET TO THE STATEMENT OF NET POSITION GOVERNMENTAL FUNDS

September 30, 2024

<b>Fund Balances - Total Governmental Funds</b>	\$ 58,160,529
---	---------------

**Adjustments for the Statement of Net Position:**

Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.

Capital assets - non-depreciable	12,446,059
Capital assets - net depreciable	68,492,745

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds.	47,137
---	--------

Differences between expected and actual experiences, assumption changes and net differences between projected and actual earnings and contributions subsequent to the measurement date for the postretirement benefits (pension and OPEB) are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position.

Deferred outflows - TMRS pension	638,306
Deferred outflows - TMRS OPEB	1,403
Deferred outflows - TRS pension	3,075,092
Deferred outflows - TRS OPEB	679,748
Deferred inflows - TMRS pension	(284,393)
Deferred inflows - TMRS OPEB	(19,017)
Deferred inflows - TRS pension	(988,289)
Deferred inflows - TRS OPEB	(2,162,939)

Some liabilities, including bonds payable and deferred charges, are not reported as liabilities in the governmental funds.

Accrued interest	(116,247)
Deferred charges on bond refunding, net	175,134
Bond premium	(1,158,251)
Net pension liability - TMRS	(1,340,967)
Net pension liability - TRS	(4,390,064)
OPEB liability - TMRS	(91,291)
OPEB liability - TRS	(1,484,624)
Compensated absences	(422,835)
Non-current liabilities due in one year	(2,659,979)
Non-current liabilities due in more than one year	(28,192,033)

<b>Net Position of Governmental Activities</b>	<b>\$ 100,405,224</b>

## *RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES*

### For the Year Ended September 30, 2024

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$	11,947,496
---	----	------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay		1,315,906
Depreciation expense		(3,178,029)
Disposal of capital assets		(49,517)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(156,694)
--	--	-----------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Compensated absences		(43,175)
Accrued interest		7,103
Pension expense		(709,657)
OPEB expense		280,534

The issuance of long-term debt (e.g., bonds, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when they are first issued; whereas, these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Amortization of deferred loss on refunding		(63,200)
Amortization of premium		127,355
Principal payments on long-term debt		2,823,215
<b>Change in Net Position of Governmental Activities</b>	<b>\$</b>	<b><u>12,301,337</u></b>

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS

September 30, 2024

### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Westlake, Texas (the “Town”) was incorporated under the provisions of the laws of the State of Texas on December 26, 1956. The Town operates under a Council - Manager form of government and provides the following services as authorized by the laws of the State of Texas: public safety; cultural and recreation; and economic development.

The accounting and reporting policies of the Town relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally Accepted Accounting Principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (“GASB”). The more significant accounting policies of the Town are described below.

#### A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

#### B. Financial Reporting Entity

The accompanying financial statements present the government and its component units, entities for which the government is considered financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government’s operations. Discretely presented component units are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the government.

As required by accounting principles generally accepted in the United States of America, these financial statements include the primary government and organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization’s governing body and either it is able to impose its will on that

# Town of Westlake, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2024

organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization.

Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes, set rates or charges, or issue bonded debt without approval by the primary government.

#### **Blended Component Units**

##### 4B Economic Development Corporation

4B Economic Development Corporation is a Texas nonprofit industrial corporation under the Development Corporation Act of 1979 formed to promote economic development within the Town and the State of Texas in order to eliminate unemployment and underemployment, and to promote and encourage employment and the public welfare of, for, and on behalf of the Town by developing, implementing, financing, and providing one or more projects defined and permitted under Section 4B of the Act. The board of directors is composed of seven persons appointed by the members of the Town's governing board. Four of the members of the board of directors are members of the Town's governing board. Since the board of directors is substantively the same as the Town's governing body, and a financial benefit relationship exists, the entity has been reported as a blended component unit of the Town. This component unit is presented as a major governmental fund for the current fiscal year.

##### Westlake Academy

Westlake Academy (the "Academy") is an open-enrollment charter school, as provided by Subchapter D, Chapter 12, of the Texas Education Code. The Town of Westlake (Charter Holder) applied for and became the first municipality in Texas to ever receive this special charter designation. The board consists of six trustees and is appointed by the Town's governing body. Currently, all the members of the board of trustees are members of the Town's governing body. Since the board of directors is substantively the same as the Town's governing body, and a financial benefit relationship exists, the entity has been reported as a

# Town of Westlake, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2024

blended component unit of the Town. The Academy's year-end is August 31. This component unit is presented as a major governmental fund for the current fiscal year.

#### **Discretely Presented Component Units**

##### Texas Student Housing Entities

The Texas Student Housing ("TSH") Authority, Texas Student Housing Authority – College Station Project, and Texas Student Housing Corporation – Denton Project (collectively, Texas Student Housing Entities) are Texas nonprofit organizations as a duly constituted authority of the Town pursuant to Section 53.35(b) of the Texas Education Code, as amended (Act). Texas Student Housing Entities' primary purpose is to construct, own, and operate student housing facilities on college campuses in Texas. The boards consist of seven directors which are appointed by the Town's governing body and has the ability to remove at will the appointed members; thus, the governing body can impose its will on the organizations. However, the board is not substantively the same as the Town's governing body; therefore, the Texas Student Housing Entities are reported as discretely presented component units (enterprise funds). The Town is not responsible for the long-term debt of the Texas Student Housing Entities. The Texas Student Housing Entities' years-end are August 31.

#### **C. Basis of Presentation - Government-Wide and Fund Financial Statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and the proprietary funds.

As discussed earlier, the government has three discretely presented component units which are shown in separate columns in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments where the amounts are reasonably equivalent in value to the interfund services provided and other charges between the various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The fund financial statements provide information about the government's funds, including its blended component units. Separate statements for each fund category; governmental and proprietary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

**Governmental Funds**

Governmental funds are those funds through which most governmental functions are typically financed. The government reports the following major governmental funds:

**General Fund**

The General Fund is the main operating fund of the Town. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund. The General Fund includes the Town's Major Maintenance and Replacement Fund, Vehicle Replacement Fund, and PID (local) Fund.

**Debt Service Fund**

The Debt Service Fund is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on long-term debt paid primarily from taxes levied by the Town. The fund balance of the Debt Service Fund is restricted to signify the amounts that are restricted exclusively for debt service expenditures.

**Capital Projects Fund**

The Capital Projects Fund is used to account for proceeds from long-term financing and revenue and expenditures related to authorized construction and other capital asset acquisitions other than those related to the expansion of Westlake Academy facilities.

**4B EDC Fund**

The 4B EDC Fund accounts for the economic development corporation's activity, a blended component unit.

**Westlake Academy Fund**

The Westlake Academy Fund accounts for the education activities of the blended component unit.

**Westlake Academy Expansion Capital Projects Fund**

The Westlake Academy Expansion Capital Projects Fund is used to account for proceeds from long-term financing and revenue and expenditures related to authorized construction related to the expansion of Westlake Academy facilities.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

September 30, 2024

### **Proprietary Fund Types**

Proprietary funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the government's business activities are accounted for through proprietary funds. The measurement focus is on determination of net income, financial position, and cash flows. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues include charges for services. Operating expenses include costs of materials, contracts, personnel, and depreciation. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. Proprietary fund types follow GAAP prescribed by the Governmental Accounting Standards Board (GASB) and all Financial Accounting Standards Board's standards issued prior to November 30, 1989. Subsequent to this date, the Town accounts for its enterprise funds as presented by GASB. The proprietary fund types used by the Town include enterprise funds.

The government reports the following major proprietary funds:

#### **Utility Fund**

The Utility fund is utilized to account for revenues and expenses related to providing water and sewer services to the general public on a continuing basis.

Additionally, the Town reports for the following fund types:

#### **Special Revenue Funds**

The Town accounts for resources restricted to, or designed for, specific purposes in a special revenue fund.

#### **Fiduciary Funds**

The Solana PID private purpose trust fund accounts for bond proceeds, assessments, and related debt associated with bonds issued by the Town as an agent for the Solana Public Improvement District.

### **D. Measurement Focus and Basis of Accounting**

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

Proprietary, pension and other postemployment benefit trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Custodial funds use the economic resources measurement focus but utilize the *accrual basis of accounting* for reporting its assets and liabilities.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

**E. Assets, Liabilities, Deferred Outflows/Inflows, and Fund Equity or Net Position**

**1. Deposits and Investments**

The Town's cash and cash equivalents includes cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Because the Town, at its option, can withdraw funds within a twenty-four hour period from TexPool and Texas Class, these investments are considered to be cash equivalents.

State statutes authorize the Town to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States; (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (5) certificates of deposit by state and national banks domiciled in this state that are (A) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (B) secured by obligations that are described by (1) – (4); or, (6) fully collateralized direct repurchase agreements having a defined termination date, secured by obligations described by (1), pledged with third party selected or approved by the Town, and placed through a primary government securities dealer. The Town's investments are governed by the same state statutes.

All investments are recorded at fair value based on quoted market prices. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

**2. Fair Value**

The Town has applied Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

**3. Receivables and Interfund Transactions**

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government." Any residual balances outstanding between the

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Advances between funds are offset by a nonspendable fund balance account in the applicable governmental fund to indicate they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of any allowance for uncollectible amounts.

**4. Inventories and Prepaid Items**

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred, (i.e., the purchase method). The inventory is carried at historical cost using the first-in/first-out method. Certain payments to vendors reflect costs applicable to future accounting periods (prepaid expenditures) are recognized as expenditures when utilized.

**5. Restricted Assets**

Certain proceeds of governmental and enterprise fund cash and investments are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants, legal restrictions, or restrictions in place by outside parties.

**6. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than \$5,000 and an estimated useful life of three years or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession are recorded at acquisition value on the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

Buildings	20-50 Years
Improvements other than buildings	5-30 Years
Machinery and equipment	3-30 Years
Information systems and software	3 Years
Infrastructure (water and sewer system)	10-50 Years

**7. Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows / inflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. The government only has three items that qualify for reporting in this category. One example is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes, fines and forfeitures and ambulance fees. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows of resources can also occur at the government wide level due to differences between investment gains and losses realized on pension investments compared to assumption used within the pension actuarial valuation model.

**8. Compensated Absences**

The Town's policy provides vacation and sick leave to be accrued at the start of employment. Employees earn 10 days of vacation and 10 days of sick leave between one year and five years of service. After completion of 5 years of service, 15 days of vacation and 15 days of sick leave per year are earned. After completion of 10 years of service, 20 days of vacation and 20 days of sick leave per year are earned. Unused vacation hours are paid upon termination or retirement at the employee's normal hourly rate.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

**9. Long-Term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. The long-term debt consists primarily of bonds payable and accrued compensated absences.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Long-term debt and other obligations, financed by proprietary funds, are reported as liabilities in the appropriate funds. For proprietary fund types, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are expensed when incurred.

Assets acquired under the terms of leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, lease transactions are recorded as other financing sources and as capital outlay expenditures in the general fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

**10. Leases**

The Town is a lessee for a noncancellable lease of a building and office equipment. The Town recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The Town recognizes lease liabilities with an individual value of \$10,000 or more.

At the commencement of a lease, the Town initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

Key estimates and judgments related to leases include how the Academy determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Town uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Town generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the Town is reasonably certain to exercise.

The Town monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

#### **11. Pensions**

For purposes of measuring the net pension liabilities, related deferred outflows and inflows of resources, and pension expense, the Town's specific information about its Fiduciary Net Position in the Texas Municipal Retirement System ("TMRS") and Teachers Retirement System ("TRS") and additions to/deductions from the Town's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS and TRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For TMRS, information regarding the Town's Total Pension Liability is obtained from TMRS through reports prepared for the Town by TMRS consulting actuary, Gabriel Roeder Smith & Company, in compliance with Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions.

For TRS, information regarding the Town's Total Pension Liability is obtained from TRS which is a cost-sharing multi-employer defined benefit plan. Reports prepared are in compliance with Governmental Accounting Standards Board (GASB) Statement No. 68.

#### **12. Other Postemployment Benefits ("OPEB")**

The Town has implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement applies to the individual

# Town of Westlake, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2024

employers (TMRS cities) in the TMRS Supplemental Death Benefits (SDB) plan, with retiree coverage. The TMRS SDB covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB No. 75 (i.e., no assets are accumulated for OPEB) and as such the SDB is considered to be an unfunded OPEB plan. For purposes of reporting under GASB No. 75, the retiree portion of the SDB is not considered a cost sharing plan and is instead considered a single employer, defined benefit OPEB plan. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary, calculated based on the employee's actual earnings on which TMRS deposits are made, for the 12-month period preceding the month of death. The death benefit amount for retirees is \$7,500. GASB No. 75 requires the liability of employers and nonemployer contributing entities to employees for defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.

For TRS, information regarding the Town's Total OPEB Liability is obtained from TRS which is a cost-sharing multi-employer defined benefit plan. Reports prepared are in compliance with Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

#### **13. Net Position Flow Assumption**

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### **14. Fund Balance Flow Assumption**

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than

# Town of Westlake, Texas

## *NOTES TO FINANCIAL STATEMENTS, Continued*

### September 30, 2024

the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

#### **15. Fund Balance Policies**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (Council) has by resolution authorized the Director of Finance and Financial Services to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. The general fund is the only fund that reports a positive unassigned fund balance amount.

#### **16. Estimates**

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

**F. Revenues and Expenditures/Expenses**

**1. Program Revenues**

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

**2. Property Taxes**

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the Town.

Property taxes at the fund level are recorded as receivables and deferred revenues at the time the taxes are assessed. Revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with Generally Accepted Accounting Principles have been recognized as revenue.

**3. Proprietary Funds Operating and Nonoperating Revenues and Expenses**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the utility fund, golf course fund, and storm water utility funds are charges to customers for sales and services. The utility fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

**NOTE 2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

**A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.**

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds.

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, “the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.”

**NOTE 3. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY**

Annual budgets are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP) for all governmental funds, with the exception of Solana PID capital projects, which is a project-length based budget. The original budget is adopted by the Town Council prior to the beginning of the year. The legal level of control as defined by the Council-approved policy is the fund level. No funds can be transferred or added which affect the total fund expenditures without Town Council approval. Appropriations lapse at the end of the year.

As of September 30, 2024, expenditures exceeded appropriations at the legal level of control (fund level) as follows:

4B Economic Development Corporation	138,802
Capital Projects Fund	38,767

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

**A. Restricted Net Position**

The Town records restricted net position on amounts with externally imposed restrictions (e.g., through debt covenants or by grantors) or restrictions imposed by law through constitutional provisions or enabling legislation. Total restricted net position for the primary government was \$19,294,260. Of which, \$318,051 is restricted by enabling legislation.

**B. Deficit Equity**

At September 30, 2024, the debt service fund had a deficit fund balance of \$112,330. The deficit balance will be eliminated in the future through reduction of expenses, increase in revenues, or reimbursements from other funds.

**NOTE 4. DETAILED NOTES ON ALL FUNDS**

**A. Deposits and Investments**

Deposits - State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. The Town's cash deposits at September 30, 2024 and during the year ended September 30, 2024 were entirely covered by FDIC insurance or by pledged collateral held by the Town's agent bank in the Town's name.

**Legal and contractual provisions governing deposits and investments**

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the Town to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, and (8) investment staff quality and capabilities.

The Act also requires the Town to have independent auditors perform test procedures related to investment practices as provided by the Act. The Town is in substantial compliance with the requirements of the Act and with local policies.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

As of September 30, 2024, the Town had the following investments:

Investment Type	Carrying Value	Weighted Average Maturity (Years)
TexPool investment	\$ 105	0.07
TexasClass investment	26,590,853	0.10
Total fair value	\$ 26,590,958	
Portfolio weighted average maturity		0.10

*Interest rate risk:* In compliance with the Town's Investment Policy, as of September 30, 2024, the Town minimized the interest rate risk, related to current events market turmoil in the portfolio by: In order to limit interest and market rate risk from changes in interest rates, the Town's investment policy sets a maximum stated maturity limit of two years for obligations of the United States Government, its agencies and instrumentalities (excluding mortgage backed securities) and one year for fully insured or collateralized certificates of deposit. No more than 80% of the Town's monthly average balance may be invested in money market funds. Additionally, the Town invests in an investment pool that purchases a combination of shorter-term investments with an average maturity of 31 days thus reducing the interest rate risk.

*Credit risk:* The Town's investment policy limits investments to obligations of the United States, State of Texas, or their agencies and instrumentalities with an investment quality rating of not less than "A" or its equivalent, by a nationally recognized investment rating firm. Other obligations must be unconditionally guaranteed (either express or implied) by the full faith and credit of the United States Government or the issuing U.S. agency and investment pools with an investment quality not less than AAA or AAAm, or equivalent, by at least one nationally recognized rating service. As of September 30, 2024, all of the Town's purchased investments in U.S. Agencies Obligations were rated AA+, AAA and Aaa by Standard & Poors, Fitch and Moody's, respectively.

*Custodial credit risk – deposits:* In the case of deposits, this is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. State statutes require that all deposits in financial institutions be insured or fully collateralized by U.S. government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. As of September 30, 2024, the market values of pledged securities and FDIC exceeded bank balances.

*Custodial credit risk – investments:* For an investment, this is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town's investment policy requires that it will seek to safeguard securities at financial institutions, avoiding physical possession.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the Town's safeguard account prior to the release of funds.

**TexPool**

TexPool was established as a trust company with the Treasurer of the State of Texas as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rate TexPool AAAM. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review. At September 30, 2024, the fair value of the position in TexPool approximates fair value of the shares. There were no limitations or restrictions on withdrawals.

**Texas CLASS**

The Texas Cooperative Liquid Assets Securities System Trust ("Texas CLASS") was created as a local government investment pool pursuant to Section 2256.016 of the Public Funds Investment Act, Texas Government Code (PFIA). Per state code, entities may pool any of their funds, or funds under their control, to preserve principal, maintain the liquidity of the funds, and maximize yield. The Texas CLASS Trust Agreement is an agreement of indefinite term regarding the investment, reinvestment, and withdrawal of local government funds. The parties to the Trust Agreement are Texas local government entities that choose to participate in the Trust (the Participants), Public Trust Advisors, LLC (Public Trust) as Program Administrator, and Wells Fargo Bank Texas, N.A. as Custodian. Finally, Standard & Poor's rate Texas CLASS AAAM. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as to the office of the Comptroller of Public Accounts for review. There were no limitations or restrictions on withdrawals.

**E. Long-term Debt**

The Town periodically issues general obligation bonds, certificates of obligation, and tax notes to provide for the acquisition and construction of major capital facilities and infrastructure. Combination tax and revenue certificates of obligation are issued for both governmental and business-type activities. General obligation bonds, governmental revenue bonds and tax notes pledge the full faith and credit of the Town. The Town also periodically utilizes notes and leases to provide financing for general government purposes. In general, the Town uses the debt service fund and general fund to liquidate governmental long-term liabilities.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

The Bonds are payable solely from the revenues generated by the Denton Property and are secured by the revenues pledged and assigned under the terms of the Trust Indenture, as well as secured by the property. The Town of Westlake does not have any liability for the payment of the bonds as the bonds are non-recourse to both the Town of Westlake and Texas Student Housing Authority. Interest rates on the bonds range from 5.00% to 11.00% and are payable semi-annually on July 1 and January 1 of each year thereafter.

At August 31, 2024, the Project was not in compliance with certain covenants of the Indenture including insufficient funds in some of the required funds and a fixed charges ratio less than 1.25. In addition, all required principal payments on the Series B bonds had not been made as of August 31, 2024. Upon certain events of default either the trustee, or owners of not less than 25% in aggregate principal of the bonds then outstanding, may declare the principal and all interest then due to be immediately due and payable.

#### Component Unit Activities - College Station Project

Year Ending September 30,	Revenue Bonds		Total Requirements
	Principal	Interest	
Past due	\$ 10,820,000	\$ 27,712,735	\$ 38,532,735
2025	1,040,000	1,301,455	2,341,455
2026	915,000	1,214,688	2,129,688
2027	675,000	1,149,558	1,824,558
2028	725,000	1,096,440	1,821,440
2029	780,000	1,039,243	1,819,243
2030	840,000	977,548	1,817,548
2031-2035	5,270,000	3,779,816	9,049,816
2036-2040	7,140,000	1,349,949	8,489,949
Total	<u>\$ 28,205,000</u>	<u>\$ 39,621,432</u>	<u>\$ 67,826,432</u>

Class C and D bonds are in default and the property does not generate enough revenue to pay the debt obligations. All of the Class C and D bonds issued remain outstanding as of August 31, 2024.

Each class has certain rights and privileges, as contained in the private placement memorandum. As a part of the offering, the Project entered into a trust agreement with The Bank of New York (the Trustee) for the purpose of determining that each class is paid in accordance with the private placement memorandum.

At August 31, 2024, the Project was not in compliance with the fixed charge coverage ratio. As a result, the lender may accelerate the maturity of the unpaid portion of the principal payable under the installment sale agreement. The Bonds are payable solely from the revenues

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

generated by the College Station Property and are secured by the revenues pledged and assigned under the terms of the Trust Indenture, as well as secured by the property.

The Town of Westlake does not have any liability for the payment of debt of the discretely presented component units as the bonds are non-recourse to both the Town and Texas Student Housing Authority.

The component unit, Texas Student Housing Authority College Station Project signed a loan agreement on October 18, 2021. This agreement establishes a committed revolving line of credit, allowing the Borrower to request advances from the Lender until the Expiration Date. The advances accrue interest at 10%. The total outstanding amount under this arrangement was initially \$5,000,000, referred to as the "Line of Credit," of which \$11,084,842 was recorded as proceeds during the year.

The following are the annual requirements to amortize long-term debt outstanding of the Public Improvement District (PID) as of September 30, 2024. The town is not obligated in any manner for the special assessment debt but merely acts as the developer's agent in handling the debt service PID. The bond is fully serviced by the special assessments received.

Year ending September 30,	Special Assessment Bonds		
	Principal	Interest	Total
2025	\$ 525,000	\$ 1,426,875	\$ 1,951,875
2026	575,000	1,398,000	1,973,000
2027	600,000	1,362,781	1,962,781
2028	650,000	1,326,031	1,976,031
2029	675,000	1,286,219	1,961,219
2030-2034	4,150,000	5,749,688	9,899,688
2035-2039	5,750,000	4,286,563	10,036,563
2040-2044	8,000,000	2,218,344	10,218,344
2045-2049	1,950,000	124,313	2,074,313
<b>Total</b>	<b>\$ 22,875,000</b>	<b>\$ 19,178,813</b>	<b>\$ 42,053,813</b>

#### F. Unearned Revenue

Unearned revenue in the proprietary fund of \$326,753 relates to the collection of the entire amount due on sixteen Ductbank leases as follows: five leases with AT&T local network services ranging from 5 – 30 years; five leases with Verizon Southwest ranging from 5-30 years; one five-year leases with MCI Metro; and one five-year lease with L3 Communications for use of the Town's Ductbank.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

Governmental funds also reported unearned revenues. Governmental unearned revenues totaled \$431,969, of which \$427,057 was from State and Local Fiscal Recovery Funds. These funds were received in advance of funds being earned.

#### G. Deferred Charges on Refunding

A deferred charge resulting from the issuance of the 2010 and 2015 general obligation refunding bonds has been recorded as a deferred outflow of resources and is being amortized to interest expense over the term of the refunded debt. The net balance outstanding as of September 30, 2024 was \$332,570 for government-type activity reflected in the government-wide statements. Current year amortization expense totaled \$106,071.

#### H. Deferred Gain on Refunding

A deferred gain resulting from the issuance of the 2021 and 2022 general obligation refunding bonds has been recorded as deferred inflow of resources. The net balance outstanding as of September 30, 2024 was \$75,389 and \$83,812 for governmental activities and business-type activities, respectively. Current year amortization expense totaled \$18,847 and \$3,644, respectively.

#### I. Interfund Transactions

The compositions of interfund balances as of the year ended September 30, 2024 were as follows:

	Due To (Payable Fund):		Total
	Debt	Visitors	
	Service	Association	
Due From (Receivable Fund):			
General fund	\$ 112,329	\$ -	\$ 112,329

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

Transfers between funds during the year are as follows:

<b>Transfer Out:</b>	<b>Transfer In:</b>		<b>Total</b>
	<b>Westlake Academy</b>	<b>Debt Service</b>	
General	\$ 1,453,264	\$ -	\$ 1,453,264
4B EDC	-	1,761,938	1,761,938
<b>Total</b>	<b>\$ 1,453,264</b>	<b>\$ 1,761,938</b>	<b>\$ 3,215,202</b>

Transfers were primarily used to support debt services and expenditures, as well as general administrative costs.

## NOTE 5. OTHER INFORMATION

### A. Risk Management

The Town is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The Town's general liability, workers' compensation liability, law enforcement liability, errors and omissions liability, and automobile liability coverage is insured by the Texas Municipal League, a public entity risk pool. The Town's only responsibility to the Texas Municipal League is to pay premiums for insurance and related deductible amounts of these policies. Other risk of loss is covered by commercial insurance. Settlements of claims have not exceeded coverage in the past three years.

### B. Contingent Liabilities & Commitments

#### Litigation

Various claims and lawsuits are pending against the Town. In the opinion of Town management, after consultation with legal counsel, the potential loss on these claims and lawsuits will not materially affect the Town's financial position.

#### Interlocal Agreement with the City of Southlake

In August 1995, the Town entered into an agreement with the City of Southlake to allow the Town to utilize capacity in a sewer line and to set forth their respective rights and obligations with respect to the sewer line owned by the City of Southlake. The Town is obligated to share in the cost of construction, operation and maintenance of the sewer line. The sewer line was constructed in 2000. Additionally, the Town must pay the City of Southlake all transportation, treatment and related costs allocable to the metered flow of sewage from the Town into the

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

sewer line. Costs associated with this agreement for the year ended September 30, 2024, were \$1,006,727.

Water Purchase Contract

The Town has a contract with the City of Fort Worth, Texas, to purchase water. Under the contract, the Town may obtain from the City of Fort Worth, a supply of potable water at a reasonable rate based on water usage. The rate charges are subject to minimum annual contract payments. Water expense for the year ended September 30, 2024, was \$1,483,271.

**C. Defined Benefit Pension Plans**

**Texas Municipal Retirement System**

**Plan Description**

The Town of Westlake, Texas participates as one of 919 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the system with a six-member board of trustees. Although the Governor, with the advice and consent of the Senate, appoints the board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available Comprehensive Annual Financial Report (CAFR) that can be obtained at [www.tmrs.com](http://www.tmrs.com).

All eligible employees of the Town are required to participate in TMRS.

**Benefits Provided**

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the Town, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the town-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may also choose to receive a portion of their benefit as a partial lump sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

The plan provisions are adopted by the governing body of the Town, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

Plan provisions for the Town were as follows:

	<u>Plan Year 2022</u>	<u>Plan Year 2023</u>
Employee deposit rate	7%	7%
Matching ratio (town to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service retirement eligibility (expressed as age / years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% Repeating Transfers	100% Repeating Transfers
Annuity increase (to retirees)	0% of CPI repeating	0% of CPI repeating

The Town also participates in Social Security.

#### **Employees covered by benefit terms**

At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	26
Inactive employees entitled to but not yet receiving benefits	45
Active employees	44
Total	115

#### **Contributions**

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the Town matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the Town. Under the state law governing TMRS, the contribution rate for each town is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

Employees for the Town of Westlake, Texas were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the Town of Westlake, Texas were 12.08% and 12.27% in calendar years 2023 and 2024, respectively. The Town's contributions to TMRS for the year ended September 30, 2024, were \$562,313 and were more than the required contributions.

#### **Net Pension Liability**

The Town's Net Pension Liability (NPL) was measured as of December 31, 2023, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

The Total Pension Liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	2.75% per year, adjusted down for population declines, if any
Investment Rate of Return	6.75%, net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees are used with a 4- year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum. The town should insert the plan provisions that they have adopted. For example, the town may include retirement eligibility, employee and employer deposit rates, vesting requirements, and other provisions such as cost-of-living adjustments or updated service credit. Plan provisions, by town, are available on the website under For Cities | Resources | Plan Design. The town may also want to refer to TMRS' Plan Description footnote, in the Annual Report, to obtain additional language regarding the pension plan. 78 16 mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Global Equity	35.0%	7.7%
Core Fixed Income	6.0%	4.9%
Non-Core Fixed Income	20.0%	8.7%
Other Public and Private Markets	12.0%	8.1%
Real Estate	12.0%	5.8%
Hedge Funds	5.0%	6.9%
Private Equity	10.0%	11.8%
Total	100.0%	

#### Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

#### **Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:**

For the year ended September 30, 2024, the Town recognized a pension expense of \$549,316. This amount is included as part of expenses within the functional program activities.

At September 30, 2024, the Town reported deferred outflows and inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred (Inflows) of Resources</b>
<b>Primary Government:</b>		
Difference between projected and actual investment earnings	\$ -	\$ (299,198)
Changes in actuarial assumptions		(6,139)
Differences between expected and actual economic experience	263,510	-
Contributions subsequent to the measurement date	422,378	-
<b>Total</b>	<b>\$ 685,888</b>	<b>\$ (305,337)</b>

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date of \$422,378 will be recognized as a reduction of the net pension liability for the year ending September 30, 2025.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended December 31:</b>	
2024	\$ (1,912)
2025	2,216
2026	108,548
2027	(150,679)
2028	-
Thereafter	-
	<b>\$ (41,827)</b>

#### **Texas Retirement System of Texas**

#### **Plan Description**

The Academy participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas

# **Town of Westlake, Texas**

## **NOTES TO FINANCIAL STATEMENTS, Continued**

### **September 30, 2024**

(TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

#### **TRS Pension Plan Fiduciary Net Position**

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained online at [https://www.trs.texas.gov/Pages/about\\_archive\\_cafr.aspx](https://www.trs.texas.gov/Pages/about_archive_cafr.aspx); by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

#### **Benefits Provided**

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with five years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with five years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

#### Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Employee contribution rates are set in state statute, Texas Government Code 825.402. The Texas Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased both employee and employer contribution rates for plan years 2020 through 2025.

Schedule of Contribution Rates

<b>Contribution Rates</b>	<b>2023 (Rate)</b>	<b>2024 (Rate)</b>
Member	8.00%	8.25%
Non-employer contributing entity (State)	8.00%	8.25%
Employers	8.00%	8.25%

The employer and member contributions for the Academy's fiscal year 2024 amounted to \$295,372 and \$490,370, respectively. The State's contributions for plan year 2023 (measurement year) amounted to \$299,155.

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

state contribution rate for certain instructional or administrative employees; and 100 percent of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.8 percent of the member's salary beginning in fiscal year 2023, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

**Actuarial Assumptions**

The Total Pension Liability in the August 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2022
Actuarial Cost Method	Individual entry age normal
Asset Valuation Method	Market value
Single Discount Rate	7.00%
Investment Rate of Return	7.25%
Municipal Bond Rate as of August 2020	2.33% as reported in Fidelity Index's 20-year Municipal GO
Inflation	2.30% per year
Overall payroll growth	3.05% to 9.05%, including inflation
Active mortality rates	Based on 90% of the RP 2014 Employing Mortality Tables for males and females with full generational mortality. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Health Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projective scale U-MP.

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2022. For a full description of these assumptions please see the actuarial valuation report dated November 12, 2022.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

#### Discount Rate

A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.50 percent of payroll in fiscal year 2024 gradually increasing to 9.56 percent of payroll in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.00 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class as of August 31, 2023 (see page 56 of the TRS ACFR) are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-Term Expected Real Rate of Return (Geometric)</b>	<b>Expected Contribution to Long-Term Portfolio Returns</b>
Global Equity	54.0%	20.3%	4.10%
Stable Value	21.0%	10.2%	0.70%
Real Return	21.0%	4.9%	1.50%
Risk Parity	8.0%	4.5%	0.40%
Asset Allocation Leverage	(4.0) %	8.1 %	(0.10)%
Inflation			2.30%
Volatility Drag			(0.90) %
Total	100.0%		

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

#### Discount Rate Sensitivity Analysis

The following presents the net pension liability of the Town, calculated using the discount rate of 7.00%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

1% Decrease 6.00%	Current Single Rate Assumption 7.00%	1% Increase 8.00%
\$ 6,563,389	\$ 4,390,064	\$ 2,582,943

#### Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the Academy reported a liability of \$4,390,064 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the Academy. The amount recognized by the Academy as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the Academy were as follows:

Academy's proportionate share of the collective net pension liability	\$4,390,064
State's proportionate share that is associated with Academy	<u>3,997,690</u>
<b>Total</b>	<b><u>\$8,387,754</u></b>

The net pension liability was measured as of August 31, 2022 (and rolled forward to August 31, 2023) and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Academy's proportion of the net pension liability was based on the Academy's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023, the employer's proportion of the collective net pension liability was 0.0063911% which was an increase of 0.0005543632% from its proportion measured as of August 31, 2022.

#### Changes since the Prior Measurement Date

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the net pension liability of TRS. In addition, the Legislature also provided for a cost-of-living adjustment (COLA) to retirees which was approved during the November 2023 election which will be paid in January 2024. Therefore, this contingent liability was not reflected as of June 30, 2024.

For the year ended June 30, 2024, the Academy recognized pension expense of \$1,607,920 and revenue of \$603,617 for support provided by the State.

At June 30, 2024, the Academy reported deferred outflows and inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred (Inflows) of Resources</b>
<b>Primary Government:</b>		
Difference between projected and actual investment earnings	\$ 156,419	\$ (53,159)
Changes in actuarial assumptions	415,214	(101,612)
Differences between expected and actual economic experience	1,371,762	(732,901)
Changes in proportion and differences in contributions	836,325	(100,617)
Contributions subsequent to the measurement date	295,372	-
<b>Total</b>	<b>\$ 3,075,092</b>	<b>\$ (988,289)</b>

Deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date of \$295,372 will be recognized as a reduction of the net pension liability for the year ending June 30, 2025.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended August 31:</b>		
2025	\$	479,211
2026		387,001
2027		651,270
2028		227,797
2029		46,152
Thereafter		-
	<b>\$</b>	<b>1,791,431</b>

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

#### **D. Postemployment Benefits Other Than Pensions**

The Town also participates in a defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. The Town elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The Town may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB. The SDBF covers both active and retiree benefits with no segregation of assets and, therefore, doesn't meet the definition of a trust under GASB No. 75, paragraph 4b, (i.e., no assets are accumulated for OPEB). As such, the SDBF is considered to be a single-employer unfunded OPEB plan (and not a cost sharing plan) with benefit payments treated as being equal to the employer's yearly contributions for retirees.

The Town offers supplemental death to:	Plan Year 2022	Plan Year 2023
Active employees (yes or no)	Yes	Yes
Retirees (yes or no)	Yes	Yes

The Town contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

#### **Employees covered by benefit terms**

At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	19
Inactive employees entitled to but not yet receiving benefits	3
Active employees	44
Total	66

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

The Town's contributions to the TMRS SDBF for the years ended 2024 and 2023 were \$1,679, and \$1,452, respectively, which equaled the required contributions each year.

#### Schedule of Contribution Rates

*(RETIREE-only portion of the rate)*

Plan/ Calendar Year	Annual Required Contribution (Rate)	Actual Contribution Made (Rate)	Percentage of ARC Contributed
2022	0.03%	0.03%	100.0%
2023	0.03%	0.03%	100.0%
2024	0.04%	0.04%	100.0%

#### Total OPEB Liability

The Town's Postemployment Benefits Other Than Pensions Liability (OPEB) was measured as of December 31, 2023, and the Total OPEB Liability was determined by an actuarial valuation as of that date.

#### Actuarial assumptions:

The Total OPEB Liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.6% to 11.85%, including inflation per year
Discount rate	3.77%
Retirees' share of benefit-related costs	\$0
Administrative expenses	All administrative expenses are paid through the Pension Trust and accounted for under reporting requirements under GASB Statement No. 68

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

on a fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

#### **Discount Rate:**

The discount rate used to measure the Total OPEB Liability was 3.77%. The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2021.

#### **Sensitivity of the Total OPEB Liability to Changes in the Discount Rate**

The following presents the total OPEB liability of the Town, calculated using the discount rate of 4.05%, as well as what the Town's total OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (3.05%) or 1-percentage-point higher (5.05%) than the current rate:

1% Decrease 2.77%	Current Single Rate Assumption 3.77%	1% Increase 4.77%
\$ 118,532	\$ 98,162	\$ 82,285

#### **Changes in the Total OPEB Liability:**

	<b>Total OPEB Liability</b>
<b>Balance at 12/31/22</b>	\$ 88,234
Changes for the year:	
Service Cost	6,156
Interest	3,669
Difference between expected and actual experience	(3,698)
Changes of assumptions	5,222
Benefit payments	(1,421)
Net changes	9,928
<b>Balance at 12/31/23</b>	<u>\$ 98,162</u>

#### **OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the year ended September 30, 2024, the Town recognized OPEB expense of \$8,553.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

At September 30, 2024, the Town reported deferred outflows of resources and deferred inflows of resources related to the OPEB liability from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred (Inflows) of Resources</b>
Differences between expected and actual economic experience	\$ -	\$ (2,624)
Changes in assumptions	-	(17,719)
Contributions subsequent to measurement date	1,403	-
<b>Total</b>	<b>\$ 1,403</b>	<b>\$ (20,343)</b>

The Town reported \$1,102 as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the OPEB liability for the year ending September 30, 2025.

Other amounts reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

<b>Year ended December 31:</b>		
2024	\$	(1,672)
2025		(1,369)
2026		(1,815)
2027		(5,535)
2028		(5,816)
Thereafter		(4,136)
	<b>\$</b>	<b>(20,343)</b>

#### **E. Defined Other Post Employment Benefit Plan**

##### **Texas Retirement System – Care**

##### **Plan Description**

The Academy participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing, defined benefit OPEB plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature. The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans,

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

**TRS-Care Plan Fiduciary Net Position**

Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <https://www.trs.texas.gov/TRS%20Documents/2023%20ACFR%20Final%202011-20-2023.pdf>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

**Benefits Provided**

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational academies who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for a retiree with and without Medicare coverage.

<b>TRS-Care Monthly Premium Rates</b>			
	<b>Medicare</b>		<b>Non-Medicare</b>
Retiree or Surviving Spouse	\$	135	\$ 200
Retiree and Spouse		529	689
Retiree or Surviving Spouse and Children		468	408
Retiree and Family		1,020	999

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

#### Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and Academy based upon Academy payroll. The TRS Board of Trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

Schedule of Contribution Rates

Contribution Rates	2023 (Rate)	2024 (Rate)
Active employee	0.65%	0.65%
Non-employer contributing entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding	1.25%	1.25%

The employer and member contributions for the Academy's fiscal year 2023 amounted to \$50,495 and \$38,634, respectively. The State's contributions for plan year 2022 (measurement year) amounted to \$70,196.

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87th Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

**Town of Westlake, Texas**  
**NOTES TO FINANCIAL STATEMENTS, Continued**  
**September 30, 2024**

**Actuarial assumptions:**

The actuarial valuation of the total OPEB liability was performed as of August 31, 2022. Update procedures were used to roll forward the total OPEB liability to August 31, 2023. The actuarial valuation was determined using the following actuarial assumptions: *Actuarial Assumptions can be found in the 2023 TRS ACFR, Note 9, page 79.*

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were updated based on the experience study performed for TRS for the period ending August 31, 2021. The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023:

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females. The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the mortality projection scale MP-2021.

Actuarial cost method	Individual entry age normal
Inflation	2.3% per year
Discount rate	3.91%, as reported in Fidelity Index's 20-year Municipal GO AA Index as of August 31, 2021
Election rates	Normal Retirement; 65% participation prior to age 65 and 40% after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Healthcare trend rates	9% for Medicare retirees and 7.30% for non-Medicare retirees
Administrative expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.

**Discount Rate**

A single discount rate of 4.13% was used to measure the total OPEB liability at August 31, 2023. This was an increase of 0.22% in the discount rate since the previous measurement date.

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the Single Discount Rate is equal to the prevailing municipal bond rate.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2023 using the Fixed Income Market Data/Yield Curve/ Data Municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

#### Discount Rate Sensitivity Analysis

The following presents the total OPEB liability of the Academy, calculated using the discount rate of 3.91%, as well as what the Academy’s total OPEB liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (2.91%) or 1-percentage-point higher (4.91%) than the current rate:

	<b>1% Decrease</b> <b>3.13%</b>	<b>Discount Rate</b> <b>4.13%</b>	<b>1% Increase</b> <b>5.13%</b>
Academy's proportionate share of the net OPEB liability	\$ 1,748,578	\$ 1,484,624	\$ 1,269,231

#### Healthcare Trend Rates Sensitivity Analysis

The following presents the net OPEB liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is one-percentage point lower or one-percentage point higher than the assumed healthcare cost trend rate.

	<b>1% Decrease</b> <b>in Trend Rate</b>	<b>Trend Rate</b>	<b>1% Increase</b> <b>in Trend Rate</b>
Academy's proportionate share of the net OPEB liability	\$ 1,222,513	\$ 1,484,624	\$ 1,821,830

#### OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2024, the Academy reported a liability of \$1,484,624 for its proportionate share of the TRS’s Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the Academy. The amount recognized by the Academy as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the Academy were as follows:

Academy’s proportionate share of the collective net pension liability	\$1,484,624
State’s proportionate share that is associated with Academy	<u>1,791,427</u>
<b>Total</b>	<u><b>\$3,276,051</b></u>

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

The Net OPEB Liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023 the employer's proportion of the collective Net OPEB Liability was .006706%, which was an increase of .00011191% the same proportion measured as of August 31, 2022.

#### Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period.

- The discount rate increased from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023. This change increased the total OPEB liability.

**Changes of Benefit Terms Since the Prior Measurement Date** – There were no changes in benefit terms since the prior measurement date.

For the year ended June 30, 2024, the Academy recognized OPEB gain of \$619,359 and revenue of \$382,969 for support provided by the State.

At June 30, 2024, the Academy reported deferred outflows of resources and deferred inflows of resources related to the OPEB liability from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred (Inflows) of Resources</b>
Differences between expected and actual economic experience	\$ 67,168	\$ (1,249,030)
Changes in actuarial assumptions	202,640	(909,075)
Difference between projected and actual investment earnings	641	-
Changes in proportion and difference between the employer's contributions and proportionate share of contributions	358,804	(4,834)
Contributions subsequent to the measurement date	50,495	-
<b>Total</b>	<b>\$ 679,748</b>	<b>\$ (2,162,939)</b>

The Academy reported \$50,495 as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net OPEB liability for the year ending August 31, 2024.

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year ended August 31:</b>		
2025	\$	(359,984)
2026		(291,890)
2027		(199,703)
2028		(230,043)
2029		(193,930)
Thereafter		(258,136)
	\$	<u>(1,533,686)</u>

#### **F. Health Care Coverage**

During the period ended August 31, 2023, employees of the Academy who met minimum eligibility requirements were covered by a state-wide health care plan, TRS Active Care. The Academy's participation in this plan is renewed annually. The Academy paid into the Plan \$397 per month per employee and \$322 per month when the employee works less than 30 hours per week if eligible to enroll in TRS Active Care. Employees, at their option, pay premiums for any coverage above these amounts as well as for dependent coverage.

The Teacher Retirement System (TRS) manages TRS Active Care. The medical plan is administered by Aetna, and Caremark Health administers the prescription drug plan. The latest financial information on the state-wide plan may be obtained by writing to the TRS Communications Department, 1000 Red River Street, Austin, Texas 78701, by calling the TRS Communications Department at 1-800-223-8778, or by downloading the report from the TRS Internet website, [www.trs.state.tx.us](http://www.trs.state.tx.us), under the TRS Publications heading.

#### **G. Solana Public Improvement District**

On February 24, 2014, the Town Council granted a petition by Maguire Partners-Solana Land, LP in resolution 14-07 to authorize and provide for the creation of a public improvement district, The Solana Public Improvement District ("the District"). The District encompasses approximately 85 acres currently being developed as a master-planned mixed-use development known as "Westlake Entrada" that is expected to include, among other things, condominiums, residential villas, hotels, office, retail, commercial, institutional and hospitality uses, and a wedding event center. The District was created in accordance with Chapter 372 of the Texas Local Government Code.

# **Town of Westlake, Texas**

## **NOTES TO FINANCIAL STATEMENTS, *Continued***

### **September 30, 2024**

On February 5, 2015, the Town Council approved issuance of \$26,175,000 of Special Assessment Revenue Bonds, Series 2015 related to the District. The Public Improvement District Bonds (The Bonds) are special and limited obligations of the Town payable solely from the pledged revenues and other funds comprising the Trust Estate, as and to the extent provided in the indenture. The bonds do not give rise to a charge against the general credit or taxing power of the Town and are payable solely from the sources identified in the indenture. The owners of the bonds shall never have the right to demand payment thereof out of money raised or to be raised by taxation, or out of any funds of the Town other than the Trust Estate, as and to the extent provided in the indenture; and, no owner of the bonds shall have the right to demand any exercise of the Town's taxing power to pay the principal of the bonds or the interest or redemption premium, if any, thereon. The Town shall have no legal or moral obligation to pay the bonds out of any funds of the Town other than the Trust Estate in accordance with the Texas Local Government Code.

The proceeds from the bond issue are being used as follows: payment of a portion of the costs of construction, acquisition, or purchase of certain water, wastewater and roadway public improvements for the special benefit of the District; funding a reserve fund; funding capitalized interest; payment of a portion of the costs incidental to the organization of the District; and payment of the cost of issuance of the bonds. The Town is not, and will not be obligated to provide any funds to finance construction of authorized improvements. All design and construction costs of the District's authorized public improvements will be paid from the District assessments and from other sources of funds, if any, to the extent provided in the Trust Indenture.

#### **H. Tax Abatements**

The Town enters into economic development agreements authorized under Chapter 380 of the Texas Local Government Code and Chapter 312 of the Texas Tax Code. These agreements are planning tools designed to stimulate economic activity, redevelopment, community improvement, and provide a return on investment for the community. These programs abate or rebate property and/or sales and hotel/motel taxes and may include other incentive payments such as fee reductions or construction costs reimbursements. Economic development agreements are considered on a case-by-case basis by the Town Council and generally contain recapture provisions, which may require repayment or termination if recipients do not meet the required provisions of the economic incentives.

#### **I. Going Concern**

These 2024 financial statements were prepared assuming the Texas Student Housing entities will continue as going concerns. The Texas Student Housing entities' bonds payable are considered to be in default due to not making full principal and interest payments and, therefore, are reported as current liabilities. This is considered an event of default by the Trustees, which gives the bondholders the right to accelerate and demand payment of the bonds in full or exercise

# Town of Westlake, Texas

## NOTES TO FINANCIAL STATEMENTS, *Continued*

### September 30, 2024

foreclosure on the assets. Management and the property managers are in the process of developing and implementing plans to increase occupancy and rental rates at the properties to improve their financial performance.

#### J. Subsequent Events

There were no material subsequent events through November 10, 2025, the date the financial statements were issued.

#### K. Restatement – Discretely Presented Component Unit

Due to corrections to accrued interest payables, the component unit restated its beginning net position. The restatement of beginning net position is as follows:

	<b>Discretely Presented Component Units</b>	<b>TSH Authority - College Station</b>	<b>TSH Corporation - Denton Project</b>
Prior year ending net position, as reported	\$ (71,596,619)	\$ (52,731,011)	\$ (21,031,386)
Correct accrued interest	15,840,486	7,352,418	8,488,068
Restated beginning net position	<u>\$ (55,756,133)</u>	<u>\$ (45,378,593)</u>	<u>\$ (12,543,318)</u>

**NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS TO PENSION PLAN**

**Valuation Date:**

Notes                      Actuarially determined contribution rates are calculated as of December 31 and become effective in January 13 months later.

**Methods and Assumptions Used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	22 years
Asset Valuation Method	10 Year smoothed market; 12% soft corridor
Inflation	2.5%
Salary Increases	3.50% to 11.5%, including inflation
Investment Rate of Return	6.75%
Retirement Age	Experience-based table of rates that are specific to the Town's plan of benefits. Last updated for the 2019 valuation pursuant to an experience study of the period 2014 - 2018
Mortality	Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. The rates are projected on a fully generational basis with scale UMP. Pre-retirement: PUB(10) mortality tables, with the Public Safety table used for males and the General Employee table used for females. The rates are projected on a fully generational basis with scale UMP.

**Other Information:**

Notes                      There were no benefit changes during the year.

## ***STATISTICAL SECTION***

The Statistical Section presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the Town of Westlake's overall financial health.

### **FINANCIAL TRENDS INFORMATION**

These schedule contain trend information to help the reader understand how the Town's Financial performance and well-being have changed over time

- 1 Net Position by component
- 2 Changes in net assets
- 3 Fund balances, governmental funds
- 4 Changes in fund balance, governmental funds

### **REVENUE CAPACITY INFORMATION**

These schedules contain information to help the reader assess the Town's most significant revenue source, the property tax.

- 5 Assessed value and actual value of taxable property
- 6 Principal property tax payers
- 7 Property tax levies and collections
- 8 Property Tax Rates - Direct and Overlapping Governments
- 9 Taxable Sales by Industry Type

### **DEBT CAPACITY INFORMATION**

These schedules present information to help the reader assess the affordability of the Town's current levels of outstanding debt and the Town's ability to issue additional debt in the future.

- 10 Ratios of general bonded debt outstanding
- 11 Ratios of outstanding debt
- 12 Direct and overlapping governmental activities debt

### **DEMOGRAPHIC AND ECONOMIC INFORMATION**

These schedules offer demographic and economic indicators to help the reader understand how the environment within which the Town's financial activities take place.

- 13 Demographic and economic statistics
- 14 Principal employers

### **OPERATING INFORMATION**

These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the service the government provides and the activities it performs.

- 15 Full-time equivalent Town government employees by function/program
- 16 Operating indicators by function/program
- 17 Capital asset statistics by function/program

Total Overlapping Debt				103,518,461
Town of Westlake Outstanding Debt				46,018,000
Total Direct & Overlapping Debt				<u>\$ 149,536,461</u>

Source: Texas Municipal Report prepared by employees of the Municipal Advisory Council of Texas ("MAC")

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Town. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the Town of Westlake. This process recognized that, when considering the Town's ability to issue and repay long-term debt, the entire debt burden borne by the resident and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1)

The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the entity's taxable assessed value that is within the Town's boundaries and dividing it by the entities' total taxable assessed value.
